

**#Wherever  
you go**

Cycling with friends, on vacation, or with the whole family in the woods, the bike carriers from Spinder bring your bikes everywhere and provide complete freedom with the utmost regard for safety.

Spinder values freedom and leisure. All our products and accessories are intended to allow you to enjoy and spend your leisure time outside and actively. Spinder has a solution for everybody in every situation!

Spinder is part of Tradekar house of leisure brands.

**WE VALUE  
FREEDOM  
AND LEISURE**

Bike carriers for 2, 3 or 4 bicycles! Equipped with a platform with a unique sliding or easy-to-use tilt system. All bike carriers have LED lights and a beautiful matte black coating for a cool look. The new multifunctional platform is the foundation for the bike carrier, with a sliding system for three bikes (Spinder SL3). In just a few steps, this bike carrier can be transformed into the base for the transport box. One platform, two options!

The bike carriers are ready to use right out of the box, with a simple attachment to the tow bar. Taking your bikes with you has never been easier!

## Spinder XT2

With easy to use tilt system

## New yet familiar!

We have given the Spinder Xplorer+ a new look without changing anything to its unique specifications. This bike carrier is still suitable for 2 bikes and expandable to transport 3 bikes. And it also features the extendable frame clamps that are perfect for fixing to the seatpost tube. But all in a new and modern design and with a new name!

## Innovative bike carrier equipped with unique sliding system

This unique bike carrier is designed specifically for campervans with swing-out doors. More space is created between the camper's rear and the bike carrier because the bike carrier slides rather than tilts. You can easily access your belongings while the bikes are on the bike carrier. Ideal!

Its cool matte black coating and LED strip lighting make for a stunning combination with the campervan.

## Sturdy bike carrier suitable for three bikes

This bike carrier is perfect for the adventurous family! It features a unique sliding system and can carry 3 bikes. Would you like to bring a fourth bike? That's also an option with this bike carrier! The fourth bicycle can easily be placed on the extra bike adapter, which can be attached to the last wheel holder just before the licence plate.

Equipped with LED lighting and universal frame clamps. Thanks to these features it's suitable for all bikes, including those with different bike frames!

The Spinder S3 base frame also serves as the platform to which the transport box is attached.

## Roof bike carrier with wheel mount

This universal, extendable upright bike carrier attaches to roof racks in no time. The lightweight and slim design ensures that there is little resistance while driving. The front wheel fits easily into the round wheel bracket, and the rear wheel is securely held in place by a strap frame holder. There is no contact with the frame thanks to securing the bike by means of a wheel bracket!

The bike carrier is, of course, outfitted with a lock and is ideal for transporting your lightweight racing bike!

## Multifunctional transport box suitable for the Spinder SL3

This transport box is really helpful! it is lightweight, sleek and has a 550-liter capacity. Ideal for camping mats, sleeping bags, and thick ski pants and jackets.

The box fits on the SL3's base platform. After removing the wheel holders, the box gets secured on the base frame.

The transport box features soft side walls and a hard top and bottom. This allows it to fold into a small package and will take up little space in the garage or attic.

Custom made bag sets, with the ideal measurements for the transport box, are available as accessories. This allows you to make the best use of all available space!

S40010 suitable for XT2

**Max. load**  
60 kg

**Own weight**  
approx. 1.2 kg

## Spinder Wall mount WM1

This wall mount will give your bike carrier a permanent home in your garage. Attach the wall mount to the wall with two screws before hanging the bike carrier. The carrier will take up little space, has a fixed location, and is less likely to be damaged!

Art. no.  
S40006

Material  
Coated steel

## Spinder storage bag RT1

Spinder has also designed a storage bag for the RT1. By use of this bag you'll protect the carrier from dirt and damage. You can easily transport it thanks to the convenient, adjustable carrying handles. The bag is, of course, made of durable materials and has a zipper closure.

## Spinder protection set PS6

Art. no.  
S40002

Material  
Neoprene

With this Spinder protection set, you'll never have to worry about damaging your bike again while transporting it on a bike carrier! The set includes six protection pieces (front fork, pedals, derailleur, rims, and frame) that will keep your bike safe.

# #Wherever you go

# SPINDER IS PART OF TRADEKAR HOUSE OF LEISURE BRANDS. OUR OTHER BRANDS ARE:

## Enduro technology

We started with the development of a caravan manoeuvring system at the end of 2005, which was introduced to the market in the year 2007. Manoeuvring systems were only available to a select group of caravan-owners at that time. Partly because of Enduro technology, the market has opened and a manoeuvring system has become almost common property to the caravan-owner! Visit the website for more information: [www.enduro-europe.eu](http://www.enduro-europe.eu)

## Pro-User electronics

Pro-User electronics offers a complete program with easy electronic car- and caravan accessories. All the products of Pro-User electronics are manufactured by reliable manufacturers all over the world. All products contain the right quality approvals such as: CE, E, R&TTE, GS and TÜV. With high quality products and its unique design, Pro-User electronics has proven to be a strong brand for car- and caravan accessories in multiple countries. Visit the website for more information: [www.pro-user.com](http://www.pro-user.com)

## Cover It

In 2014 Tradekar took over the brand Cover It. Cover It offers protection covers for dust and scratch free storage of a roofbox or roofbars. The protection covers are made of strong, waterproof and UV resistant double layer PVC fabric. For extra protection, the inner side has a rubbercoating and the protection covers can be closed precisely by a zipper and Velcro. New to the program is the four-piece bag set that fits in your roof box. Visit the website for more information: [www.cover-it-all.eu](http://www.cover-it-all.eu)

## ETM-TEC

The ETM-TEC electric outboard motors from [fluistermotor.nl](http://fluistermotor.nl) are since 2018 part of Tradekar Benelux BV. These trolling motors are perfect for a sailing day. Because the motor of ETM-TEC are electric there is no emission and they are therefore very environmentally friendly. ETM-TEC has different types of engines and accessories in its product range. Visit the website for more information: [www.fluistermotor.nl](http://www.fluistermotor.nl)

## Pro-User bike carriers

Pro-User bike carriers develops and produces solid and reliable bike carriers for the transport of bicycles on the towbar, rear or roof of the car. All bike carriers are our own designs in which we also have European patents on several (sub) products. The bicycle carriers are produced with great care and also undergo several quality checks. Most products also have a European type approval granted by the RDW. Visit the website for more information: [www.pro-user.eu](http://www.pro-user.eu)
